## Pentru libertate si egalitate

Radu Florescu - director general Saatchi&Saatchi Romania, Matei Paun - director Servicii Consiliere Delloite&Touche Romania, Dan Visoiu (foto) - avocat inregistrat in Florida, angajat al unei companii de avocatura franceza si Mark Percival - istoric de origine britanica, doctor in relatii romano-britanice, au infiintat, in septembrie 2003, **Romania Think Tank (RTT)**, un institut de studii si cercetari care isi propune sa promoveze principii precum egalitatea politica, libertatea civila, dreptul de proprietate privata si libertatea economica. Chiar daca lucreaza in domenii diferite - comunicare, finante, drept -, biografia lor are ceva in comun: au la baza o educatie occidentala, dar au venit sa lucreze in Romania. Rapoartele RTT au fost trimise factorilor de decizie din guvern, parlament, grupurilor media, comunitatilor academice si grupurilor politice din Romania si din strainatate.

"Evenimentul Zilei" will present those persons who are capable of positively influencing the country's future

...

## For liberty and equality

Radu Florescu - managing director at Saatchi&Saatchi Romania, Matei Paun - head of Financial Advisory Services Delloite&Touche Romania, Dan Visoiu (photo) - attorney licensed to practice in Florida, associate of a French law firm and Mark Percival - historian of British origin, with a doctorate in Romanian-British relations, established, in September 2003, **Romania Think Tank (RTT)**, an institute [think tank] for studies and research which aims at promoting principles such as political equality, civil liberties, ownership rights and economic freedom. Even if [they] work in different areas - communications [advertising], finance, law - their biographies [resumes] have something in common: [at the core] they have a Western education, but have come to Romania to work. The RTT's reports have been sent to Government [and] Parliament decision-makers, the media, academicians and political groups from Romania and abroad.
